Alexandria Ganette. DENNSYLVANIA

MONDAY EVENING JAN. 14, 1901.

How Ningara Wears the Rock. All who have been to Niagara know that the cataract is divided by Goat island, the larger portion of the fall be-ing on the Canadian side of the river. This part is known as the Horseshoe fall and was so named because years ago it was identical with a horseshoe break occurred toward the New York side, and since then other changes have taken place, until today the Horsesho fall is more like its original form, but clearly shows the effects of the wear-

ng of the waters.

Many people fail to see how the falls wear the rock away, and this is a little mystery until the exact conditions are calized. The ledge of rock over which the water of both the American and It is all of 60 feet thick and aturally very heavy. Underneath this ledge of limestone there are the shales of the Niagara locality. This soft rock is many feet thick. The rock of the Horseshoe fall is unprotected, and as ne water falls over the precipice and bolls in the river below it washes away the soft shale beneath the limeston so that the limestone is left in sheflike form, projecting far out into the gorge. Observant visitors to the falls have no

doubt noticed this condition.

In the course of time the shale foundation of the limestone ledge is excavated to such a point that the unsup-ported ledge breaks away by its own weight, and the crest line of the Horseshoe fall recedes so much farther. Then the water attacks the newly exposed shale, and in time the process outlined is repeated. This has been going on for centuries, and it will con-tinue until the falls of Niagara are no more.-Philadelphia Record.

The Preacher Was Glad She Swore. The daughter of a well known clergyman in Washington had a severe at tack of scarlet fever when she was 3 years old which resulted in deafness. Up to that time she had been a regular little chatterbox, doing her infantile best to carry out the proverbial:

Being a woman, she'll talk forever! Upon her recovery her parents were early heartbroken to find that she had not only lost her hearing, but the power of speech as well. Whether she had really forgotten how to talk or whether it was obstinacy or lack of confidence they could not determine, but despite all efforts of the best tutors the child remained a mute.

One day when she was nearly 10 years of age she was playing with a cat, and with as much cruelty as though she were of the sterner sex she used its tail as a handle with which to pick it up. The poor animal, not appre-clating the economic use of the afore-said tail, inflicted a deep scratch across

the chubby little hand.
"Damn that cat!" she said, flinging it

And her father, devout clergyman as he was, clasped his hands and, raising his eyes to heaven, exclaimed: "Thank God, that child has spoken at

The House That Tresham Built. One of the curiosities of architecture in England is, according to The Stone Trades Journal, the house erected about 300 years ago at Rushton, in Northamptonshire, by Sir Thomas Tresham, a Roman Catholic, who wished by his design to typify the

Trinity. The house is all threes, has three sides, three stories and three windows on each flat, each of them in the shape of the trefoil-the three leaved shamrock. Where the roofs meet rises a three sided pyramid, terminating in a large trefoil. The smoke escapes from this chimney by three round holes on each side of the three sides. The building is almost covered with mottoes and carvings, three Latin inscriptions, one on each of the three sides, having 33 letters in each. Three angles on each side bear shields. Over the door is the text from the Vulgate, "There are three that bear record." Inside the house each corner is cut off from each of the three main rooms, so that on every floor there are three three sided apart-

Architectural Oddities. At Frankfort-on-the-Main there is one street in which two houses on opposite sides of the street lean over so far that their roofs meet over the street. In one of these houses Lord Rothschild was born. In Paris, on the other hand, it is noticeable that the builders intentionally construct the houses so that they lean backward slightly to add to their stability. But almost in the center of Paris there is one big stone building which leans out fully 3½ feet over the sidewalk. So solid, however, are the Paris buildings that this one is claimed to be safe,— Pearson's Weekly.

Told the Truth. Mother-Now, Georgie, I shall tell your papa to punish you severely for-telling an untruth. You said you didn't touch one of those six peaches, and there is only one left, and I found the

five stones in your nursery.

Georgie-I told no story, mamma. The peach I didn't touch is the one

Spoiled His Breakfast,

"How is the landlady this morning?" asked one of the boarders,
"Threatening and cooler," answered

the man with the newspaper, misunderstanding the question.

And the other boarder, who was notoriously slow in settling with the land-

lady, looked partly cloudy.-Chicago

She-How many pictures have you painted since you first began?

He-Oh, I haven't any idea. She-Some day I am coming around to your studio and count them .- Ex-

Such little pills as DeWitt's Little Enr.y Risers are very easily taken, and they are wonderfully effective in cleansing the liver and bowels.

The highest market price paid for Cle Wrought and Cast Iron, Brass and Copper.

BY ELEVATING THE QUALITY of our coal we lower the price in economy

of our coal we lower the price in economy of consumption. Consumers will find that it is cheaper to use our high grade Lee Coal, that has been screened and freed from elate and stone, than that of an inferior grade. It gives more heat, less ashes and burns longer than any other coal, and our prices are as low as any. Coal and Wood under cover.

J. B. ZIMMERMAN,
Foot of Queen street: Alexandria, Va. Telephone 77.

Office:—No 102 south Fairfax street.
During a business cristence of twenty-nine years this company has paid Fire losses amounting to \$292,757,00. It has never contested a just claim, but by prompt and equitable settlement of losses has secured the confidence of the insuring public. The Stock-bolders have received in dividends the sum of \$96.621.00

1837 The Sun. 1901

BALTIMORE, MD.

The vaper of the people, for the people and with the people. Honest in motive, fearless in expression and sound in principle.

The fear is the highest type of a newspaper.

The sun's special correspondents throughout the United States, as well as in Furpe, South Africa, Chins and, in fact, all over the world, make it as un-to-date newspaper.

The market reports and commercial features put the farmer, the merchant and the break in close touch with the markets at Belaimore, Norfolk, Charleston, New York, Chiergo, Palladelphis and other places which are prominent centres.

From now on the news of the world promises to be more interesting than ever before, and national and political questions will arise, making probably the mot eventual period in the country's history.

This, together with the corps of editors and reporters at Baltimore, Washington and New York, make the Sun invaluable to it residers.

By mall, 50 cents a month; six months \$3; one year, \$6.

THE BALTIMORE WEEKLY SUN, The Bes. Family Newspaper.
